EXPERIENCE

Senior Software Engineer - **BaseCamp Franchising**

March 2025 - Present

- Architected the Nexus API and frontend for store invoicing, software release management, and store connectivity monitoring.
- Established the new Hive API service that runs in stores and talks to Nexus. Hive powers the new task management, rackhealth and backstock, and the overhauled payments processing features.

Worker Owner & Engineer - **Unfrl**

January 2019 - Present

- Interfacing with local activists to develop the community-moderated, police and incident database, CopDB: <https://app.copdb.org>.
- Other projects: StepWise - a process builder and editor for standardizing complex work instructions; Carpool - open source app to coordinate carpools to events.

Software Engineer - **United Network for Organ Sharing**

September 2023 - October 2024

- Contributed to a modernization effort to move a legacy web app from ASP.NET forms to Angular, and set up Storybook & CI/CD for design.

Senior Software Engineer - **Wisely**

March 2021 - November 2021

- Implemented the Review Context service for associating guest visit data with their online reviews.
- Rebuilt the guest review aggregation feed frontend to support context data, also improving load times and accessibility.

Senior Software Engineer - **PDQ.com**

October 2016 - January 2019

- Project lead on: PDQ Live webcast app with real-time chat and Q/A; custom forums & knowledge base; re-architected core payments processing service.

Software Developer - **CivicMinder**

January 2016 - October 2016

- Built the Android and iOS apps for political engagement and news aggregation, along with supporting services like URL unfurling.

Software Engineer - **ASEC Engineering**

October 2014 - January 2016

- Built an asset management system for linking PLS-CADD projects with manufacturer drawings, GIS data, 3D model rendering, and more.

PROJECTS

CopDB - .NET Core, React

Community-moderated police and incident database - tracks police officers, their departments, and incidents or misconduct they're involved in.

StepWise - Node.js, React

Block-based process editor for creating dynamic, step-by-step work instructions and training programs.

Lively - Node.js, React

Task management app with kanban/table views, and chat rooms with rich content support.

SKILLS

Programming languages

C#, TypeScript/JavaScript, SQL, Java, Python.

Frameworks & libraries

.NET Core, Node, React, NestJS, Vue, Angular, Spring Boot.

Databases

PostgreSQL, Redis, Elasticsearch, Clickhouse.

Tools & platforms

Docker, OpenTelemetry, Minio, OpenAPI, Drone/Forgejo CI, Meilisearch, DO/GCP/AWS.

EDUCATION

Colorado State University

2010 - 2014 // Fort Collins, CO
Graduated cum laude with a Bachelor of Science in CIS.
